MEMORANDUM FOR: All NIOs and PP

SUBJECT : Military Data Bases

25X1A

Attached are self-explanatory notes (just received) from  OSR, concerning a survey related to potential crises areas. This effort has been undertaken at the direction of the DCI with an eye toward ensuring that the Community's house is put in order (as much as it can be) before, rather than during or after a crisis. Obviously, the Community cannot become bogged down in compiling detailed data on every part of the world, but a selective survey of this nature should be of value in determining ahead of time (where possible) those military data analysts must have, the data bases in existence, their degree of reciprocal compatibility (if any) and the availability of the data to the analysts in a time of crisis. I would like to take counsel with you on this survey at our Thursday, 18 July, NIO meeting.
